### Book/File holder

### Line guide

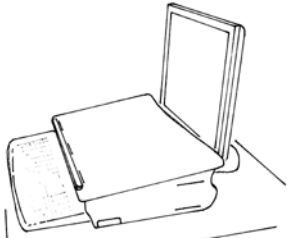

### Your most versatile desktop accessory

The unique design of the u Slope document holder transforms instantly into a reading and writing slope by simply gliding the u Slope forward over the keyboard. Now you can work with papers and documents directly in line with your keyboard, for better posture and less neck and back strain.

- Slope quickly adjusts for use as a document holder, writing surface, reading stand or laptop holder.
- Six slope settings from 8° to 45° ensure individual comfort while reading and writing.
- Space-saving design reduces clutter, optimizing your desktop. *NOTE: Images were taken on a shallow 600mm (24") depth desktop to illustrate u Slope's space-saving design.*
- Two ledge options accommodate papers, books, or a laptop. Combined, they function as a pen/pencil holder.
- File shelf accessory can also be utilized as a laptop stand. Raised support aids in laptop heat displacement. Ideal for HOT DESKING environments.
- Non-marring padded feet slide on smooth surfaces. Optional non-slip pads are included for fixed positioning.
- Magnetic holder effectively secures papers to the slope.

## Easy glide system with non-slip feature

The U SLOPE easy glide system allows the user to effortlessly move the unit backwards and forwards on the workstation surface. When a rigid non-slip function is required, simply position the U SLOPE with the non-slip area in contact with the front edge of the desk: If a totally non slip option is desired, replace the Easy Glide Pads with the rubber feet supplied.
