

Setup - X-stand

1. Lay your stand flat on the table and push backwards the top plate until it rises and forms a gap of about 1 cm

2. Unfold support leg of the portable monitor and introduce it in the gap between top plate and stand

3. Secure the monitor on the stand by pushing the support base until it locks as the support moves towards the monitor base

4. Open your stand to form an „A frame“, pull legs apart until you hear a click sound. If you didn't, please press tongue inwards gently - it will click

5. Place carefully the stand and the monitor adjacent to your laptop on the laptop stand while connecting the cables between the monitor and laptop, as required

6. Position your double monitor setup about an arm's length away. Add an external keyboard and mouse to create an ergonomic workstation
