

Ear 308 Monaural Headset

This lightweight headset features comfort for your ears with a microphone boom that can be adjusted to multiple positions. Adjusting the headset will never drop the fantastic audio quality. The Easyflex Headset has a long lasting durable design. Having been specialized for the purpose of communication, the microphone has anti-static shock to protect your hearing health.

MODEL STRUCTURES:

- Single earpiece offers superb clarity of sound
- International standard hearing protection to your ears
- Easyflex mic boom offers multiple adjustment and accurate position
- Click-stop headband for superior fit and comfort
- Leatherette ear cushion for all-day comfort

Ear 308D Binaural Headset

Very similar to the Ear Office 308 model, this headset includes noise cancellation to protect callers from distraction. It's a great choice for noisy business environments, offering the same comfort and durability of the previous model.

MODEL STRUCTURES:

- Double earpiece is ideal for medium call volumes
- International standard hearing protection to your ears
- Anti-static shock microphone provides protection for hearing health
- Gooseneck mic boom offers multiple adjustment and accurate position
- Click-stop headband for superior fit and comfort
- Protein leatherette ear cushion for all-day comfort

Ear 510 Monaural Headset

This Flex Boom headset contains an excellent noise cancelling microphone boom, so your voice will come through clear despite surrounding distractions. All monaural designed headsets offer a comfortable and cool fit. Use the flexible microphone boom to adjust freely to any position.

MODEL STRUCTURES:

- Durable and flexible hose boom is easy to adjust
- Extra noise cancelling microphone effectively reduces surrounding noise, making your voice heard clearly
- Anti-static shock Microphone provides protection for hearing health
- Click-stop headband for superior fit and comfort

Ear 510D Binaural Headset

This headset, with a noise cancelling microphone and binaural design, offers both the receiver and speaker the ability to concentrate on every communication. Noise cancellation improves talking efficiency and makes communicating easier. Adjustable headband and soft ear cushions provide comfort to last a whole work day.

MODEL STRUCTURES:

- Double earpiece, undisturbed talking even in noisy call centre
- Noise cancelling and anti-static shock microphone cancels out extraneous noise
- Choose for minimum distraction and maximum call quality
- Click-stop headband for superior fit and comfort
- Durable and flexible hose boom is easy to adjust
- Protein leatherette ear cushion for all-day comfort
