**BodyBilt**  
**Direct** offers ergonomic solutions for everyone with four amazing products and all of the BodyBilt modularity for which they are known.

**The BodyBilt quality you expect is the same, you just pay less!**

# THE MID-HIGH BACK J3407 / J2407

The J3407 is the BodyBilt® ergonomic solution to meet a variety of workplace needs. The #7 Seat offers a comfortable choice with moderate contouring that accommodates the largest percentile of workers. The J3407 model features a compact back which is ideally suited for the user with a more compact body-frame.

## Standard Features:

- High-Back - 20" (51cm) long x 20" wide at bottom  
16" (40.5cm) wide at top
- Backrest angle adjustment - 15° range
- Backrest height adjustment - 4" (10cm) range
- Seat - 19" (48cm) wide 21" (53cm) deep
- Seat height adjustment - 5.5" (14cm) range
- Supports up to 300lbs (21.4st / 136kg)
- Seat tilt adjustment & tension control
- Forward tilt range of 5° plus
- Seat slide - 2" (5cm) range
- Black, non-upholstered arm pads (soft, 4" (10cm) wide)
- Multi armrest height articulation and angle adjustment
- Armrest width adjustment - 4" (10cm) range
- Upholstered back shell
- Inflatable Air Lumbar®
- Multi-adjustable neck roll (J3407)
- 360° swivel
- Black 26" five-star base (66cm)
- Hooded carpet casters
- Medium contoured seat
- Extra high gas lift available
- Optional short cylinder
- Forward tilt stop
- Tilt lockout lever

# THE SADDLE CHAIR J3402 / J2402

Ergonomic adjustability and comfort are the cornerstones of BodyBilt seating. The J2402 features 10-point posture control, which allows the user to control their ergonomic level of comfort. The #2 seat pan is our most deeply contoured seat and is designed to give a high level of support in the forward tilt position.

## Standard Features:

- High-Back - 20" (51cm) long x 20" wide at bottom  
16" (40.5cm) wide at top
- Backrest angle adjustment - 15° range
- Backrest height adjustment - 4" (10cm) range
- Seat - 19" (48cm) wide 23" (58.5cm) deep
- Seat height adjustment - 5.5" (14cm) range
- Supports up to 300lbs (21.4st / 136kg)
- Seat tilt adjustment & tension control
- Forward tilt range of 5° plus
- Seat slide - 2" (5cm) range
- Black, non-upholstered arm pads (soft, 4" (10cm) wide)
- Multi armrest height articulation and angle adjustment
- Armrest width adjustment - 2" (5cm) range
- Upholstered back shell
- Inflatable Air Lumbar
- Multi-adjustable neck roll (J3402)
- 360° swivel
- Black 26" five-star base (66cm)
- Hooded carpet casters
- Medium contoured seat
- Extra high gas lift available
- Optional short cylinder
- Forward tilt stop
- Tilt lockout lever

# THE STRETCH CHAIR J3509 / J2509

ErgoGenesis introduces the ergonomic seated solution for the taller than average seated worker. The Stretch seat is 4" longer than our standard contoured seat, 3" narrower than our wide contoured seat and less contoured than either. Multiple layers of foam combine with anatomical contours and unique recesses to reduce seated pressure.

## Standard Features:

- High-Back - 21.50" (54.5cm) long x 22" (55cm) wide at bottom  
18" (45.5cm) wide at top
- Backrest angle adjustment - 15° range
- Backrest height adjustment - 4" (10cm) range
- Seat - 23" (58.5cm) wide 23" deep
- Seat height adjustment - 5.5" (14cm) range
- Supports up to 300lbs (21.4st / 136kg)
- Seat tilt adjustment & tension control
- Forward tilt range of 5° plus
- Seat slide - 2" (5cm) range
- Black, non-upholstered arm pads (soft, 4" (10cm) wide)
- Multi armrest height articulation and angle adjustment
- Armrest width adjustment - 4" (10cm) range
- Upholstered back shell
- Inflatable Air Lumbar
- Multi-adjustable neck roll (J3509)
- 360° swivel
- Black 26" five-star base (66cm)
- Hooded carpet casters
- Medium contoured seat
- Extra high gas lift available
- Forward tilt stop
- Tilt lockout lever

# THE PETITE CHAIR J3406 / J2406

People who are very small (i.e. below the 10th percentile) often have a difficult time finding the right chair. The BodyBilt J2406 ergonomic task chair is ideal for these people. This model comes with a short cylinder fitted at no additional cost.

## Standard Features:

- High-Back - 20" (51cm) long x 20" wide at bottom  
16" (40.5cm) wide at top
- Backrest angle adjustment - 15° range
- Backrest height adjustment - 4" (10cm) range
- Seat - 18.5" (47cm) wide 17.5" (44.5cm) deep
- Seat height adjustment - 5.5" (14cm) range
- Supports up to 300lbs (21.4st / 136kg)
- Seat tilt adjustment & tension control
- Forward tilt range of 5° plus
- Seat slide - 2" (5cm) range
- Black, non-upholstered arm pads (soft, 4" (10cm) wide)
- Multi armrest height articulation and angle adjustment
- Armrest width adjustment - 4" (10cm) range
- Upholstered back shell
- Inflatable Air Lumbar
- Multi-adjustable neck roll (J3406)
- 360° swivel
- Black 26" five-star base (66cm)
- Hooded carpet casters
- Minimum contoured seat
- Extra high gas lift available
- Optional short cylinder
- Forward tilt stop
- Tilt lockout lever

# THE BODYBILT MODULARITY FACTOR

The unique BodyBilt Modularity Factor (BMF) gives employers and managers a means of extending the functional life of the chair. More than that, BMF has enabled companies to reconfigure their seating to meet the physical or medical needs of new employees as well as changing tasks among existing workers. It's an amazingly cost-effective means of ensuring that each employee has the right chair with the right ergonomic features for the life of the chair and well-being of the worker.

Now, the useful life of every BodyBilt ergonomic chair may be extended beyond its ten-year plus warranty period. In most cases, BMF allows for quick and simple service, repair or part replacement with simplicity. Minimising downtime maximises the useful life of the chair at work.

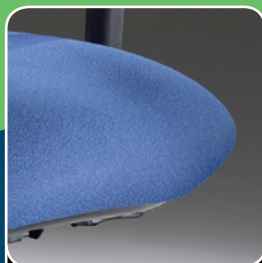

The extensive modularity of the BodyBilt ergonomic chairs also means that you can build a completely bespoke solution for workers with specialised requirements. By using the modular components you can custom-build a unique chair from the ground up!
