Oryx evo D laptop stand

Oryx evo D is an ultra-light, fold-flat laptop stand with four adjustable height settings for ergonomic working in the office, at home or on the move.

The stand has a space-saving footprint and offers stable screen elevation with 10" to 17" laptops. It also features an in-line copy holder, which holds reference documents in position just below the screen to avoid neck strain.

Oryx evo D folds to 2.5mm thick and is held flat by discreet magnets so that it can easily be slipped inside a laptop bag for transportation.

Combined with an external mouse and keyboard this laptop stand improves user comfort and will meet Health & Safety DSE requirements for laptop users.

Weight: 220g

Folded dimensions: 308 x 200 x 2.5mm
