SOLO X wireless/ rechargeable keyboard

This slim keyboard has a soft-touch key action with 83-full-sized keys in a UK layout including 14 multi-media keys and embedded number keys.

The ultra-slim design makes it a perfect solution for mobile workers as it easily slips into a laptop bag and there are no more worries about batteries running out at an inconvenient time as the keyboard is rechargeable. The keyboard can even be used while it is charging.

Included with each keyboard is a charging lead, nano RF receiver, protective sfabric sleeve and a magneting tilt-strip that can be attached to the keyboard back-plate offering a 5 deg. angle to the keyboard

Features:

- Plug & play XP, Vista, Win7, Win8, Win10.
- On/off switch preserves charge in transit.
- Ultra-slim and lightweight design.
- Low charge indicator
- Metal back plate with hi-grip pads

Dimensions:

Keyboard: 308 x 112 x 8mm. Weight: 270g

Colour: Black with white key caps

Part No: ST352321 EAN: 0 601577 559665
